WHY CHOOSE JJ INDUSTRIES?

Unmatched Quality

Crafted with top-grade materials to deliver precision, reliability, and superior performance – every time.

Engineered for Strength

Rugged, robust, and built to withstand demanding industrial environments with ease.

Exceptional Value

High performance meets affordability – offering you the best in class at a highly competitive price.

Quick & Easy Setup

Smart design ensures effortless assembly and installation, saving you time and effort.

Built for Mobility

Lightweight and compact – easily transported to wherever you need it most.

Made to Last

Long-lasting durability you can count on, with minimal maintenance and maximum uptime.

At JJ Industries, we take pride in being one of India's foremost manufacturers of Standard and Combined Test Pieces as well as Roller Tables—essential components for X-ray screening systems.

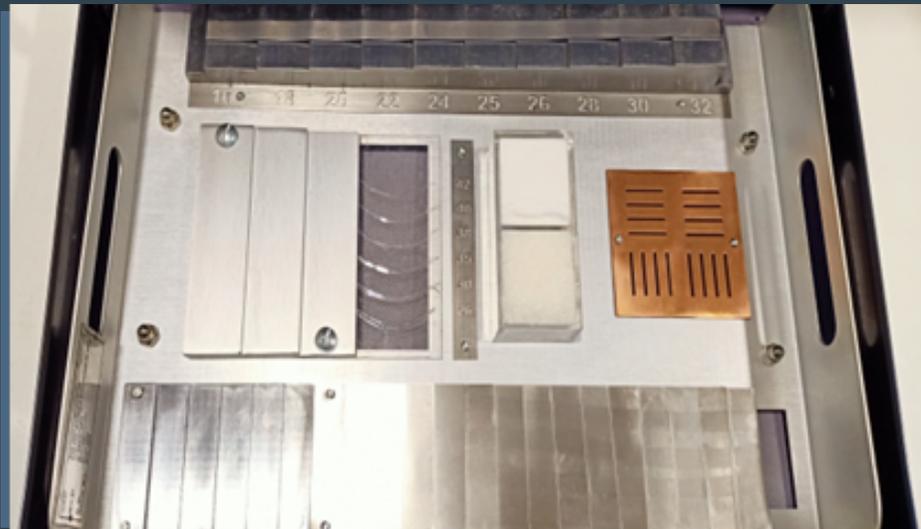

With a track record of producing more than 25,000 units, we are trusted by leading organizations across industries for our commitment to quality, reliability, and customization.

STANDARD / COMBINED TEST PIECE

The Combined Test Piece is a precisely engineered assembly composed of various metals and materials—including iron, aluminum, lead, copper, brass, salt, sugar, and more. These materials represent a broad spectrum of physical properties such as weight, density, and chemical composition, encompassing both organic and inorganic substances. This diverse combination is specifically designed to rigorously evaluate the performance and accuracy of X-ray screening systems.

MATERIAL COMPOSITION & THREAT SIMULATION

MATERIAL	MATERIAL TYPE	EXAMPLES	THREATS
SUGAR	ORGANIC	WOOD, OIL	TNT, SEMTEX
SALT	INORGANIC	GLASS, PAPER	HERION, COCAINE
ALUMINIUM STEPS	LIGHT METAL	ALUMINIUM, SILICON	GUNPOWDER, TRIGGER DEVICES
IRON STEPS	HEAVY METAL	IRON, STEEL	GUNS, BULLETS, KNIVES
LEAD STRIP	IMPENETRABLE	LEAD	SHIELDING FOR ABOVE THREATS
TINNED COPPER WIRES	METAL WIRE	FUSE WIRE	DETONATORS
METAL STRIPS	METAL	IRON, STEEL	METAL
COPPER	HEAVY METAL	METAL	CLOSELY PACKED OBJECTS

ROLLER TABLE

The Roller Table is an accessory designed to seamlessly extend the operational capacity of X-ray baggage scanning systems. Engineered with precision, our Roller Tables are constructed exclusively from high-grade stainless steel, offering a perfect balance of lightweight design and superior durability. This ensures consistent, long-term performance even in the most demanding security environments. We manufacture roller tables as per client's requirements.

TAILORED SOLUTIONS

Understanding that every setup is unique, we provide fully customizable Roller Tables manufactured to the exact specifications and dimensions required by our clients. This bespoke approach guarantees flawless integration with a wide range of X-ray inspection equipment.

MOTORIZED RAMP

A motorized ramp is a powered conveyor system that aligns seamlessly with the main X-ray scanner belt, ensuring smooth and continuous item flow. Built with industrial-grade materials, it automates movement—ideal for high-traffic areas where speed and efficiency are key.

KEY FEATURES

Robust, heavy-duty build for long-lasting durability.

Motorized operation for easy, hands-free movement.

Adjustable height for compatibility with different baggage scanner models.

Built for noise-free performance, our motorized ramps ensure minimal operational sound.

TRUSTED BY INDUSTRY LEADERS NATIONWIDE

JJ Industries delivers solutions that work flawlessly when it matters most. With over 25,000 units of our products delivered across India and international markets, JJ Industries has established itself as a trusted partner to major OEMs in the X-ray baggage scanner industry. Our prestigious clientele includes:

Airport Authority of India

Supplied 352 units in a single order

Commonwealth Games Stadium

250 units supplied in a single order

Delhi Airport Terminals 1, 2 & 3

Including 130 units for Terminal 3

City Metros

Delhi, Kolkata Metro, Hyderabad Metro & Cochin Metro

Luxury Hotels

Taj Hotels, ITC, JW Marriott Hotels

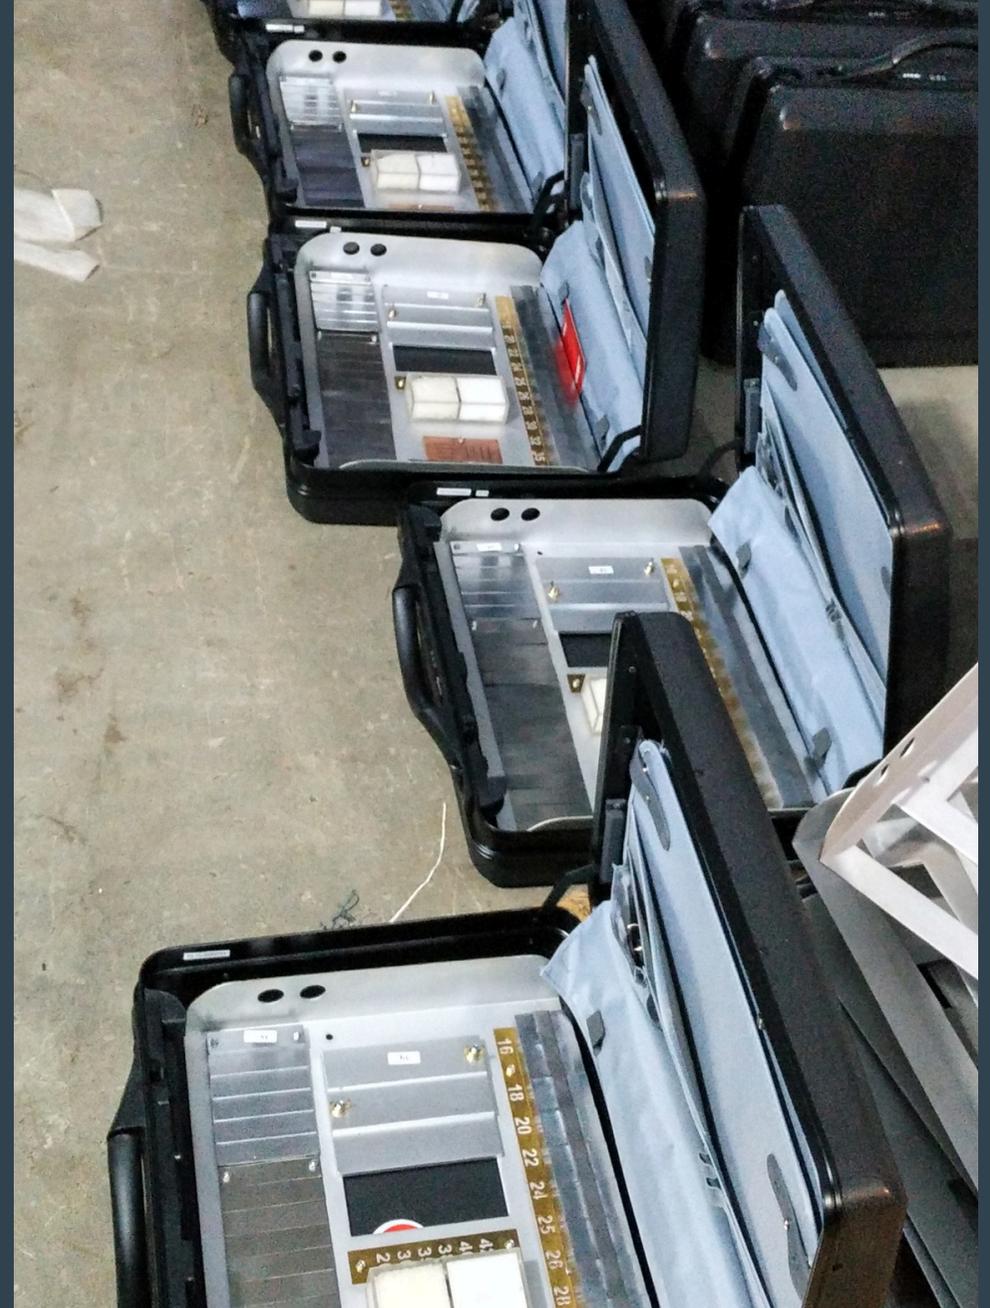

OUR COMMITMENT

We provide high-quality, durable, and reliable Roller Tables that enhance the efficiency and effectiveness of security screening operations. Partner with us to experience unmatched craftsmanship and tailored solutions designed to meet your security infrastructure needs.

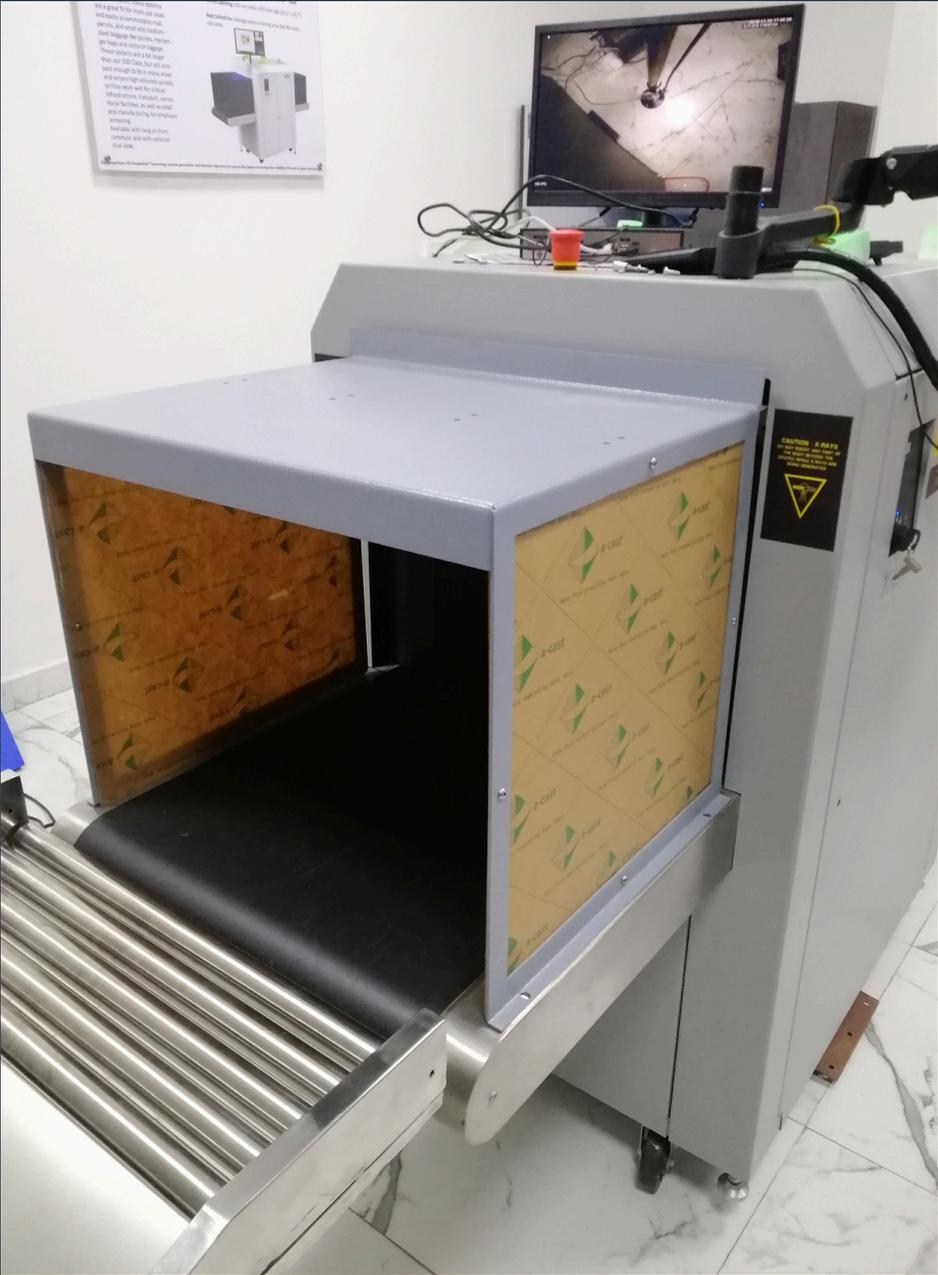

320 ROLLER TABLES EXPORTED TO (ISTANBUL METRO)

COMBINED TEST PIECE

TUNNEL HOODS

ROLLER TABLES

IDLERS, ROLLERS & SNUB ROLLERS

DROP CHUTES

LET'S GET STARTED

We'd love to hear from you! Whether you have a question, need more information about our products, or wish to discuss a specific requirement, feel free to get in touch directly via phone or email. We're here to assist you with the right solution.
